Limited Offer

San Diego Padres
SQUARE Perma-Rail Dugout Padding

Perma-Rail is a PERMANENT square rail padding that offers forward-facing media coverage straight out of the dug-out. It's smooth, custom fitted look is enhanced by sponsorship advertising or team branding printed directly onto the vinyl, which provides the opportunity to recoup the cost of the padding and installation over a very short period.

- Change from one sponsor to the next with a simple vinyl recover.
- Propose effective, customized campaigns secure in the knowledge that viewers will be attracted to the graphics players are leaning on during every game.

As the premier provider of sports padding, you will see our pads protecting the fields of over 70% of the Major League ballparks and practice fields, and an impressive number of Minor League parks, including the Nationals, Brooklyn Cyclones, Dell Diamond's Round Rock Express, Nashville Sounds, LA Dodgers, SD Padres, KC Royals, CO Rockies, MN Twins, and Texas Rangers, to name a few. There is a reason why these teams keep coming back, and it has everything to do with our superior graphic printing, durable quality construction, support staff, and exceptional maintenance.

No project is too big or too small. We have padded entire stadiums, outfields, baselines, backstops, bullpens, and customized projects for doors, gates, camera wells, lifts, backstop netting, batter's eye windscreen, and rotational signs.

Please consider our services when you're ready. Provided with measurements, we will be happy to quote you or submit a bid.
